Building a SDI with OpenJUMP

Tuesday 12 Sep 2006 at 09:00 (03h30')

The aim of the workshop is to show how OpenJUMP can be used to help building a Spatial Data Infrastructure. Participants will learn how to create a PostGIS-based data source and how to add data to it using OpenJUMP. Visualization, styling and geoprocessing with OpenJUMP will be illustrated with simple examples.

Integration with a map server will be shown. The workshop will make use of SVG and of other current web technologies.
