Advanced MapGuide Open Source Development

Tuesday 12 Sep 2006 at 14:00 (03h30')

The goal of this workshop is to show how to use the MapGuide APIs to develop web mapping applications and geospatial web services. Topics will include serving live data to Google Earth, performing geo-spatial analysis, digitizing and shared markup, and using the resource database to create maps dynamically.

All development will be done in PHP using the latest release of MapGuide Open Source.
