OGC's lightweight standards initiatives

Thursday 14 Sep 2006 at 09:45 (00h30')

This presentation will give an update on the Open Geospatial Consortium's efforts to
create standards that appeal to the mass market. We report on simple profiles of Web
Feature Service (WFS-Database and WFS-Files) and symbology encoding, progress on a
tiling Web Mapping Service, and the latest news on GeoRSS.
